

Repair solutions

CINCOTTI CARE PROVIDES A SERVICE OF CLAIMS HANDLING THROUGH REPAIR SOLUTIONS.

REPAIR

Repair for property claims is an option that the client/insured can choose alternatively to the classic money indemnity.

A **loss adjuster** provides a proper claim assessment and an **artisan** repairs the damage with innovative techniques and, where possible, non-invasive in order to grant the satisfaction of the clients who avoid to pay in advance for the repair and have the problem solved.

TO WHOM AND WHY

INSURANCE COMPANIES

- costs reduction
- offer of an innovative service
- improvement of the products through additional services

INSURANCE AGENCIES NETWORK

- preservation of the relationship of trust with clients
- offer of a high quality service

CONDOMINIUM MANAGERS

- rapid problem solving
- reduction of resident's inconvenience
- absence of annoying complaints

BENEFITS

- COSTS REDUCTION
- PROPER CLAIM ASSESSMENT
- PROCESS INNOVATION
- CUSTOMER SATISFACTION
- NO PAYMENT IN ADVANCE

OUR GOALS

Cincotti care combines all this through the pursuit of 3 goals:

REDUCE TIME AND COSTS OF INTERVENTION

Through a vast network of loss adjusting experts Cincotti Care can grant a **widespread coverage** and a reduction of response time. The development of a **software dedicated** to the Repair provides the sharing of all the process between the loss adjuster and the artisans, through the immediate exchange of all the information needed by the loss adjusters and the repairer.

The **centralised purchasing**, an accurate **suppliers selection** in regards to the quality and a proper use of **technologically advanced equipment** grant a relevant **reduction of the costs of intervention**, already confirmed in the other countries where the Repair has been working for years.

FIGHT INSURANCE FRAUDS

A damage already repaired cannot be claimed twice to more than one insurer.

The Repair is an effective way to fight insurance frauds that are a burden on the Insurance companies balance. They worsen the ratio Claims/Premium of the insurers forcing an increase of premium at the expense of the honest insured.

OUR GOALS

PROVIDE TECHNOLOGICALLY ADVANCED INTERVENTIONS

BENEFITS

PRECISE IDENTIFICATION OF ALL THE LEAK POINTS
AND FURTHER PROBLEMS

DISMANTLING AND DEMOLITION INTERVENTIONS
ARE LIMITED

RAPID RESPONSE TIME

OPPORTUNITY TO REPAIR THROUGH SEALING PRODUCTS
KEEPING THE INSTALLATION ON

REDUCTION OF THE DISCOMFORT FOR THE LEAK
DETECTION AND FURTHER REPARATION

SYSTEMS

METHOD AND TECHNIQUE OF LEAK DETECTION AND DIAGNOSIS THROUGH NON-INVASIVE SYSTEMS

Leak detection on pressure installations

- Digital pressure gauge
- Acoustic system
- Tracer Gas
- Infrared
- Video inspection

Leak detection on waterproof systems

- Tracer-gas system
- Geo-electrical system
- Vacuum system

DRYING SYSTEMS

NON-DESTRUCTIVE METHODS OF REPARATION AND RESTORATION OF PIPES

- Auto-sealing
- Relining

TECHNIQUE OF PERMANENT REMOTE MONITORING ON WATERPROOF SYSTEMS

FOCUS:TRACER GAS

THE TRACER GAS

- grants an almost totally non-invasive detection
- provides objective and reproducible data
- insufflates inside the pipe an inert gas mixture
- after the pressurizing of the installation, sensors detect the gas above ground
- the gas comes out perpendicular to the leak point
- easy detection in a circumscribed area
