PROPERTY DAMAGE

BUSINESS INTERRUPTION

# THE COOPERATION

C&C and MDD work together in a cooperated manner to provide (Re)Insurance companies and brokers **a seamless, market leading loss handling solution** combining the strengths of both organisations, accessible through **a single access point for the Insurer client**.

## C&C e MDD

- Provide specialist technical knowledge and extensive experience in both the **property damage** and **business interruption** domains from each independent party respectively.
- Collaborate to offer clients a significantly **greater, more experienced and more global service** than those offered by other parties while maintaining contractual and legal autonomy.
- Guarantee a global presence through local contacts.
- Work together to provide **specific knowledge in their respective domains**, supported by a **high level of analysis and research**.

# WHAT IS FORENSIC ACCOUNTING?

Forensic accounting is a **specialty accounting practice area** where traditional **accounting, auditing and investigative skills** are used to **analyse financial and operational information**.

An important role includes the **quantification of economic damages** related to:

- Business Interruption
  - Lost of Profits
  - Increased Costs of Working
- Verification and reviews of Property Damage & Stock Loss
- Products Liability, Professional and General
- Personal Injury
- Recourse in Subrogation
- Fraud, Concealment and Misrepresentation
- Valuation of economic damages relating to disputes

## BENEFITS

- Guarantee of a coordinated analysis in regard to quantifying property damage and business interruption losses
- Unique market reference with extensive experience in PD and BI
- Timely presence at the loss locations, to avoid the risk of further losses
- Immediately after a PD event, data acquisition of useful elements for the reduction and quantification of the BI
- Rapid financial evidence gathering supports early causation, coverage and subrogation decision making
- Offering a vast forensic accounting resource with international presence and experience
- A single access point improves communication and timing for the customer
- Improved control of indemnity spend and focused utilisation of specialist resources
- Handling of claims that have different facets by specialists who are able to give complete answers
